

System Settings (NFA)

To access NetFlow system configuration, go to [blocked URL](#) > **Settings > NetFlow Settings > Configuration**.

NetFlow users can view and NetFlow administrators can manage:

- [Service Options \(NFA\)](#)
- [Database Maintenance \(NFA\)](#)
- [Raw Data Archive](#)
- [Export/Import](#)
- [Automatic Deduplication](#)
- [Whois lookup](#)
- [Reverse DNS lookup](#)
- [Elasticsearch service](#)
- [Data aggregation interval](#)
